EBSCOhost Mobile Frequently Asked Questions

How do I log into EBSCO*host* Mobile?

EBSCO*host* Mobile can be accessed at:

http://m.ebscohost.com/

http://search.ebscohost.mobi/

Note: The EBSCO user ID and password are required to log into EBSCO*host* Mobile from your Smartphone. If you need login credentials, contact the library or the reference librarian

What is the direct URL to use for my EBSCO*host* Mobile profile?

http://search.ebscohost.com/login.aspx?authtype=ip,uid&profile=densem77

What features are available in EBSCO*host* Mobile?

EBSCO*host* Mobile has the following features available:

- Basic Searching
- HTML and PDF Full Text
- Search Modes
- Limiters
- Image Quick View
- Image Collection (depending on the database that has been selected)
- E-mailing articles
- Preferences
- Multi-database Searching
- Branding

Can I email articles using EBSCO*host* Mobile?

Yes, as in EBSCO*host*, you can email articles from both the EBSCO*host* Mobile result list and article details screens.

Which mobile devices have been used to test EBSCO*host* Mobile?

EBSCOhost Mobile was tested on several devices and also underwent a Beta period that solicited customer feedback on many unique devices. Although, it has not been tested on all mobile devices available in the market it was quality certified on the most popular smartphones including:

> BlackBerry (be sure IE is set as browser)
> Dell Axim
> iPhone
> Palm 750

Is javascript required to use EBSCO*host* Mobile?

Your device must have javascript enabled in order to use EBSCO*host* Mobile.

Note: BlackBerry users can refer to the following link for information on enabling javascript: http://www.ehow.com/how_4965723_enable-javascript-blackberry.html

Why does the EBSCO*host* Mobile interface look different when I view it on my Mac or PC?

The EBSCO*host* Mobile interface has been optimized for use on a mobile device with a smaller screen. When this interface is viewed on a normal sized computer screen, the interface will appear stretched with fewer features available than the standard EBSCO*host* interface.
